CREATION OF GOOD UI FROM AN BAD UI

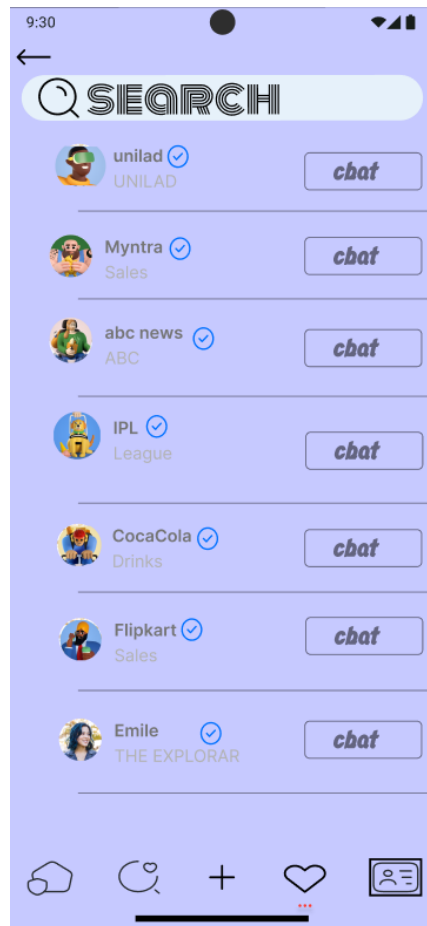

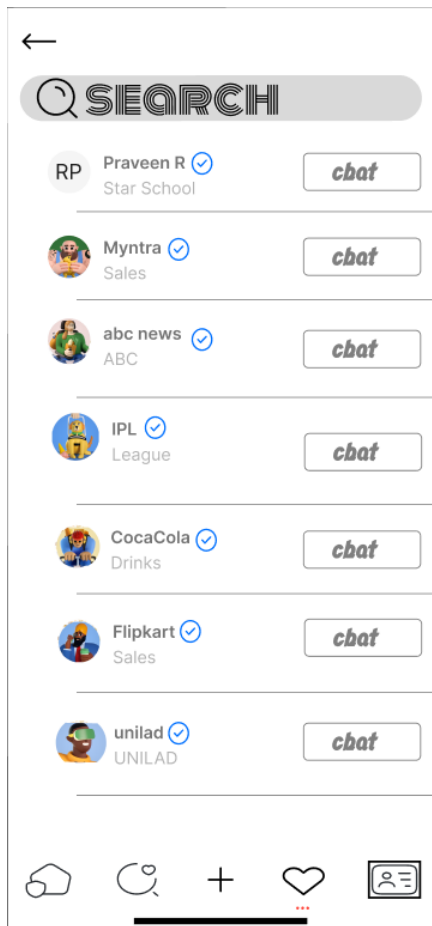

BAD UI:

1. The buttons look different from each other.
2. The items are not spaced evenly.
3. It's hard to tell what's most important.

4. **The colors are boring.**
5. **It's not clear what you should do.**

UPDRADE OF THE UI :

POINTS:

- 1. The buttons look the same.**
- 2. It's easy to see what's important.**
- 3. There's a lot of empty space, which makes it look nice.**
- 4. It's simple and easy to understand.**
- 5. The colors are used well.**
- 6. The buttons are easy to press.**
